SUBJECT INDEX

A

Admitting privileges
  as constraint to advanced psychiatric nursing practice, 203
Adolescents
  disordered eating behaviors in girls, 264-275
Advanced practice psychiatric nursing
  constraints to, 198-209
  future of, 165-166
  national profile, 182-183
  patient outcomes used to evaluate effectiveness of practice, 184-197
  preparation as nurse practitioner versus clinical nurse specialist for, 229-230
  psychiatric nurse practitioners with prescriptive authority, 57-65
  psychiatric-primary care nurse practitioners, 2-12
African Americans
  depression in middle class women, 107-117
    self-esteem, 108-109, 111, 114-115
    social support, 108, 111, 114
    stressful life events, 108, 111, 113
Aggression
  effect of walking program for nursing home wanderers on, 21-28
Alcoholism
  diagnosis of dual disorders in rural women with, 74-81
Alienation
  in suicidal older adults, 29-36
Alliance
  between four psychiatric nursing organizations, 1
Alzheimer's disease
  attribution-affect-action model of caregiving behavior, 210-217
  strategies for communicating with individuals with, 249-256
Antidepressants
  for unipolar major depression, 308-309
Appraisal
  in self-coherence survey, 276-281
Assertion training
  for psychiatric inpatients, 46-51
Assessment, psychiatric
  of dual disorders in rural substance-abusing women, 74-81
Attribution model
  of caregiving behavior, 210-217
Atypical antidepressants
  for unipolar major depression, 309

B

Baccalaureate programs, nursing
  community service and critical thinking in clinical course, 88-95
  competency-focused psychiatric nursing clinical evaluation for, 66-73
Body image
  and disordered eating in middle adolescent girls, 264-275
Borderline personality disorder
  dialectical behavior therapy for, 96-101

C

Case management
  community mental health, 332-339
Charting
  deconstructing progress notes in psychiatric settings, 325-331
Chronic mental illness
  written accounts of lifeworld of people with, 314-324
Clinical competency
  of junior-year BSN students in clinical psychiatric nursing courses, 66-73
Clinical intervention
  walking program for nursing home wanderers, 21-28
Clinical nurse specialists
  versus preparation as nurse practitioner for advanced practice nursing, 229-230
Coalition of Psychiatric Nursing Organizations
  alliance model for organizations, 1
Community-based mental health care
  evolution of case management in, 332-339
Community service
  in nontraditional settings in undergraduate mental health clinical course, 88-95
Community support services
  implications for psychiatric nursing, 231-237
    PEERS Unlimited Inc., 233-234
Comorbid disorders
  diagnosis of in rural substance abusing women, 74-81
Competency
  of junior-year BSN students in clinical psychiatric nursing courses, 66-73
Consumers, of mental health services
  checklist for quality indicators of care within managed care, 177
  recovery movement led by, 231-237
Critical thinking
  in undergraduate mental health clinical course, 88-95
Curriculum, nursing
  community service and critical thinking in undergraduate clinical course, 88-95
  decrease in mental health content in, 105-106
  evaluation of clinical psychiatric nursing competency in junior-year students, 66-73
  for psychiatric-primary care nurse practitioner program, 2-12

D

Decision making
  about treatment, by schizophrenic clients, 238-248
Dementia
  attribution-affect-action model of caregiving behavior, 210-217
  clinical intervention for wanderers on geriatric unit, 21-28

communicating with individuals with Alzheimer's disease, 249-256
psychosocial model of care for, 13-20
risk profiles for institutionalization of elderly with, 295-303
vocally disruptive behavior and previous personality in, 147-154
Depression
diagnosis of dual disorders in rural substance-abusing women, 74-81
in middle class African American women, 107-117
women's capability to perform mental health-related self-care, 126-132
risk profiles for institutionalization of elderly with, 295-303
skill-based recovery program for rural women, 37-45
unipolar major, psychobiology and psychopharmacology, 304-313
Diagnosis
of dual disorders in rural substance-abusing women, 74-81
Dialectical behavior therapy
for borderline personality disorder, 96-101
Discrimination
against mental illness by insurance providers, 55-56
Disordered eating
in middle adolescent girls, 264-275
Dissociative identity disorder
feminist approach to inpatient treatment, 218-224
Divorce
building new life after, 282-289
Drug abuse
diagnosis of dual disorders in rural women with, 74-81
Dual disorders
diagnosis of, in rural substance-abusing women, 74-81

E

Eating disorders
body weight/shape self-schema in middle adolescent girls, 264-275
Education, nursing
community service and critical thinking in undergraduate clinical course, 88-95
competency-focused psychiatric nursing clinical evaluation for junior-year BSN students, 66-73
decrease in mental health content in, 105-106
preparation as nurse practitioner or clinical nurse specialist, 229-230
psychiatric-primary care nurse practitioner program, 2-12
Effectiveness, of practice
patient outcomes used by advanced practice psychiatric nurses to evaluate, 184-197
Elderly patients, *see* Geriatric patients
Emotional intelligence
and success in life, 293-294

F

False memory syndrome
nurses' views on, 257-263
Families
caring for an adult child with schizophrenia, 118-125
quality indicators of mental health care within managed care, 178
Feminism
in inpatient treatment of dissociative identity disorder, 218-224

G

Geriatric patients
clinical intervention for wanderers in dementia unit, 21-28
communicating with individuals with Alzheimer's disease, 249-256
psychosocial model for dementia care, 13-20
suicidal, study of meaning of life in, 29-36
with dementia or depression, risk profiles for institutionalization, 295-303
Graduate nursing programs
psychiatric-primary care nurse practitioner program, 2-12

H

Heideggerian phenomenology
lived experience of power and powerlessness in psychiatric nursing, 155-162
Hermeneutical analysis
lifeworld of chronically mentally ill, 314-324
lived experience of power and powerlessness in psychiatric nursing, 155-162
of meaning of life in suicidal older adults, 29-36
Holism
in self-coherence survey, 276-281
Homeless shelters
community service by undergraduate students at, 88-95
Hospitalization, psychiatric
long-term in Tokyo, Japan, 139-146
see also Inpatient treatment

I

Inpatient treatment, psychiatric
assertion training therapy, 46-51
dissociative identity disorder, feminist approach to, 218-224
long-term in Tokyo, Japan, 139-146
short-term, norms and expectations for, 82-87
Institutionalization
risk profiles for, in elderly with dementia or depression, 295-303
vocally disruptive behavior and previous personality in patients with severe dementia, 147-154 *see also* Hospitalization *and* Inpatient treatment
Instrument development
Mental Health-Related Self-Care Agency Scale, 126-132
Psychiatric Nursing Performance Appraisal, 66-73

Insurance coverage, for mental health care
legislation on, 55-56
Interventions, clinical
walking program for nursing home wanderers, 21-28
Introspection
in self-coherence study, 276-281

J

Japan
long-term psychiatric patients hospitalized in Tokyo, 139-146

L

Legislation
for mental health insurance coverage, 55-56
Life events
stressful, and depression in middle class African American women, 107-117
Lifeworld experience
of the chronically mentally ill, 314-324
Long-term treatment, psychiatric
characteristics of hospitalized patients in Tokyo, Japan, 139-146

M

Major depressive disorder
nursing practice paradigm for rural women with, 37-45
unipolar, psychobiology and psychopharmacotherapy, 304-313
Managed care
changes in therapy for borderline personality disorder under, 96-101
community mental health case management under, 332-339
quality indicators for primary mental health within (special report), 167-181
background, 169-172
considerations for quality, 175-178
consumer checklist, 177
core values, 172-174
family members' checklist, 178
goals, 172
payer checklist, 180
principles, 174-175
provider checklist, 179
recommendations, 180-181
recovery movement and, challenges of, 231-237
Master's degree programs
psychiatric-primary care nurse practitioner program, 2-12
Meaning, of life
in suicidal older adults, 29-36
Medical records
deconstructing progress notes in psychiatric settings, 325-331
Memory
nurses' views on false memory syndrome, 257-263
Mental health care
primary, quality indicators for within managed care (special report), 167-181
stigma and insurance coverage legislation, 55-56
Mental illness
chronic, lifeworld of people with, 314-324
see also specific disorders
Miller's relational model
in inpatient treatment of dissociative identity disorder, 218-224
Monoamine oxidase inhibitors
for unipolar major depression, 307-308
Multiple personality disorder, *see* Dissociative identity disorder

N

National Alliance for the Mentally Ill
need for psychiatric nurses, 290
Nurse practitioners, psychiatric
model for psychiatric-primary care, 2-12
versus preparation as clinical nurse specialist, 229-230
with prescriptive authority, 57-65
Nurses, psychiatric
lived experience of power and powerlessness, 155-162
national profile of advanced practice, 182-183
Nursing homes
psychosocial model for dementia care, 13-20
walking program as intervention for wanderers, 21-28

O

Organizations, psychiatric nursing
alliance of, 1
Outcomes, patient
used by advanced practice nurses to evaluate practice effectiveness, 184-197

P

Parents
caring for adult child with schizophrenia, 118-125
Partnerships
consumer-professional, in recovery movement, 231-237
Patient outcomes, *see* Outcomes
Payers, for mental health care
checklist for quality indicators within managed care, 180
see also Insurance coverage
PEERS Unlimited Inc.
recovery movement and psychiatric nursing, 233-234
Performance appraisal
of junior-year BSN students in clinical psychiatric nursing courses, 66-73
Personality
previous, in severely demented institutionalized patients, 147-154

Pharmacotherapy
of unipolar major depression, 307-310
Power
lived experience of in psychiatric nursing, 155-162
Powerlessness
lived experience of in psychiatric nursing, 155-162
Prescriptive authority
as constraint to advanced psychiatric nursing practice, 202-203
psychiatric advanced practice nurse with, 57-65
Primary mental health care
by psychiatric-primary care nurse practitioner, 2-12
quality indicators for within managed care (special report), 167-181
Progress notes
deconstructing in psychiatric setting, 325-331
Providers, of mental health care
checklist for quality indicators within managed care, 179
Psychiatric inpatients, *see* Inpatients
Psychiatric nurse practitioners
futuristic model for psychiatric-primary care, 2-12
model for psychiatric-primary care, 2-12
with prescriptive authority, 57-65
PsychNPAI instrument
appraising competency in baccalaureate clinical psychiatric nursing courses, 66-73
Psychobiology
of unipolar major depression, 304-313
Psychopharmacotherapy
of unipolar major depression, 304-313
Psychosocial model
for dementia care, 13-20
Public health
quality indicators for primary mental health care within managed care (special report), 167-181

Q

Quality indicators
for primary mental health care within managed care (special report), 167-181

R

Recovery movement
implications for psychiatric nursing within managed care, 231-237
background, 231-232
concept of, 232
PEERS Unlimited, Inc., 233-234
Reimbursement
as constraint to advanced psychiatric nursing practice, 201-202
Relational model, Miller's
in inpatient treatment of dissociative identity disorder, 218-224
Research, in psychiatric nursing
identifying priorities for, 340-345
single subject experimentation, 133-138
see also Instrument development
Resources, in health care
infinite demands for finite, 105-106
Risk profiles
for institutionalization of elderly with dementia or depression, 295-303
Rural areas
dual disorders in substance-abusing women in, 74-81
skills-based depression recovery program for women in, 37-45

S

Schizophrenia
caring for an adult child with, 118-125
treatment decision making by clients with, 238-248
Selective serotonin reuptake inhibitors
for unipolar major depression, 309-310
Self-care
measuring individual's capability to perform mental health-related, 126-132
Self-cognitions
and disordered eating in middle adolescent girls, 264-275
Self-coherence
psychometrics of survey of, 276-281
Self-esteem
and depression in middle class African American women, 107-117
Sexual abuse
nurses' views on false memory syndrome, 257-263
Short-term treatment, inpatient
norms and expectations, 82-87
Single subject experimentation
in psychiatric nursing, 133-138
Social constructionist perspective
psychosocial model of dementia care, 13-20
Social support
and depression in middle class African American women, 107-117
Stigma
and insurance coverage for mental health care, 55-56
Stressful life events
and depression in middle class African American women, 107-117
Students, undergraduate nursing
community service, critical thinking, and writing by, 88-95
evaluating clinical psychiatric nursing competency of, 66-73
Substance abuse
diagnosis of dual disorders in rural women with, 74-81
Suicide
dialectical behavior therapy for borderline personality disorder, 96-101
meaning of life in suicidal older adults, 29-36
Support, social
and depression in middle class African American women, 107-117

T

Treatment decisions
uncertainty about in schizophrenic clients, 238-248
Tricyclic antidepressants
for unipolar major depression, 308-309

U

Undergraduate studies, *see* Baccalaureate programs
Unipolar major depression
psychobiology and psychopharmacology, 304-313

V

Vocally disruptive behavior
in severely demented institutionalized patients, 147-154

W

Walking program
as intervention for wandering nursing home residents, 21-28
Wandering, by nursing home residents
walking program as clinical intervention for, 21-28
Women
building a new life after divorce, 282-289
depression in middle class African American, 107-117
disordered eating in middle adolescent girls, 264-275
dual disorders in rural substance-abusing, 74-81
feminist approach to inpatient dissociative identity disorder treatment, 218-224
measuring ability to perform mental health-related self-care, 126-132
skill-based depression recovery program for rural, 37-45
Women's Affective Illness Treatment Program
for depressed rural women, 37-45
Writing
in undergraduate mental health clinical course, 88-95
